

Renewable Energy Activity Global to Regional

JUNE 28, 2017 | 5:30 p.m. - 7:00 p.m.
PORTLAND PUBLIC LIBRARY | RINES AUDITORIUM

Renewable Energy Activity - Global to Regional

Join us on Wednesday, June 28th with guest speaker Lawrence Mott, Director Americas of SgurrEnergy Inc., a global renewable engineering firm, speaking on the current status of large scale wind and solar projects, technology, and policy here and abroad. Lawrence brings his thirty three years working in the renewable energy industry on projects in wind and solar from Mongolia to Texas, onshore and offshore. His presentation will offer insight, examples and political considerations covering a range of topics including: Impacts of the Trump Administration on our energy portfolio and overall energy policy; Renewable technology and how it is competing with conventional generation worldwide.

Discussion and Q&A will be encouraged.

Guest Speaker: Lawrence Mott, Director Americas of SgurrEnergy Inc.

Lawrence has been in the renewable energy industry over thirty one years, currently as a Director at SgurrEnergy Inc. in the Portland, Maine office, focusing on company management, diligence and engineering solutions worldwide. His previous roles include: Principal of New Generation Partners L3C a renewable energy project developer; Senior Projects Manager for US based wind developer First Wind; and Technical Director at Northern Power Systems, a wind turbine and power systems manufacturer. Past board member of the American Wind Energy Association, and Chairman of Renewable Energy Vermont a renewable trade

association for seven years, he has been active in technology development, project development and leading energy policy including feed in tariffs, net metering, and tax credits. Lawrence holds degrees in Engineering and Business from the University of Vermont. For more information visit: www.sgurrenergy.com.
